INTRODUCTION

The Office of Institutional Research, together with the Users Advisory Committee, presents the tenth publication of the Oklahoma State University Student Profile. Our objective in producing this document is to provide information on present, as well as previous, Oklahoma State University student enrollment. We attempt to depict trend data in a manner which is useful in planning for the challenges which lie ahead. This report is intended as an internal reference to help the University community better understand the University's most important resource--its students.

Some of the tables this year have been revised to include more information, or to be more easily understood. The Users Advisory Committee is to be commended for their continued support and advice. While the publication cannot contain all available information, it does present a comprehensive profile of most student information which has been requested by Oklahoma State University administrators.

This publication is intended as a "living document" to which additional information will be added each year. The document has become a very useful resource for student information to many departments and individuals at OSU. We encourage users of this publication to direct their comments, questions, and suggestions about its contents to the Office of Institutional Research.
