## INTRODUCTION

The Office of Institutional Research together with a Users Advisory Committee presents the third publication of the Oklahoma State University Student Profile. The objective with the publication of this document is to provide descriptive information on previous and present Oklahoma State University student enrollment and to depict trend data in a manner which is useful in planning for the challenge which lies ahead. This report is intended as an internal reference to assist the University community to better understand the University's most important resource--its students.

Upon reviewing this year's publication, one will find additional tables which were not included in last year's publication. The Users Advisory Committee is to be commended for their advice on how to improve last year's publication and we have tried to incorporate their suggestions in this publication. While the publication cannot contain all available information, it does present a comprehensive profile of most student information which has been requested by Oklahoma State University administrators. If a specific statistic of descriptive student information is needed and cannot be found in the publication, please contact the Institutional Research office. (The information may be available, but was deemed not to be of use to most users and thus was not published.) This profile is intended as a "Living Document" to which additional information will be added; the current plan is to update the entire report each year.

So that it may become a more effective document, users of this publication are encouraged to direct comments, questions and suggestions about its contents to the Office of Institutional Research.
