

OSU STUDENT PROFILE

FALL SEMESTER 1985

PREPARED BY

OFFICE OF INSTITUTIONAL RESEARCH

OKLAHOMA STATE UNIVERSITY

STILLWATER, OKLAHOMA

OCTOBER 14, 1985

INTRODUCTION

The Office of Institutional Research together with Users Advisory Committee presents the fifth publication of the Oklahoma State University Student Profile. Our objective in producing this document is to provide information on previous and present Oklahoma State University student enrollment and to depict trend data in a manner which is useful in planning for the challenge which lies ahead. This report is intended as an internal reference to help the University community better understand the University's most important resource--it's students.

Upon reviewing this year's publication, one will find that some of the tables have been revised to include more information or to be easier to understand. The Users Advisory Committee is to be commended for their advice on how to improve last year's publication and we have tried to incorporate their suggestions in this publication. While the publication cannot contain all available information, it does present a comprehensive profile of most student information which has been requested by Oklahoma State University administrators.

This publication is intended as a "living document" to which additional information will be added; the current plan is to update the report annually after review by the Advisory Committee.

We encourage users of this publication to direct their comments, questions and suggestions about its contents to the Office of Institutional Research.

^aA specific percent of the total ACT scores reported in Oklahoma each year are Juniors who are not eligible for enrollment that fall but will be the next fall. Therefore, the figures labeled "Estimated number of students eligible for college enrollment" will have the previous 4 year high school juniors added and the current year high school junior students subtracted from the ACT scores reported in Oklahoma.

^bPreviously this information could only be estimated. However, ACT was able to provide the actual number for Fall 1985.

^cEligible fall semester of that year.

Note: Retention is defined as the percent of enrolled students of a fall semester who return for the following fall semester.
Example: A student who was enrolled as a Freshman in Agriculture in the Fall Semester 1982 and who was also enrolled as an undergraduate in the Fall Semester of 1983 is reflected in the 68.4 percent retention figure above. Cont. = Continued, Grad = Graduated.

Note: A non-returning student is defined as a student who was enrolled at OSU for one Fall Semester but who did not graduate and who did not return to OSU for the following Fall Semester. The data presented above shows non-returning students as a percent of the total enrollment (by class) for the Fall Semester 1982, 1983 and 1984. The percent of the previous fall semester class which graduated (% Grad) is also presented.

For example, of the total (100%) black students enrolled at OSU as seniors in the Fall Semester 1984, 30.9% were not enrolled at OSU in the Fall Semester 1985 nor had they graduated from OSU. These students are shown as "% Non-Returning." 38.9% of the black students enrolled in the Fall Semester 1984 had gone on to graduate prior to the Fall Semester 1985.

STUDENT RETURN RATE BY CLASSIFICATION
 OKLAHOMA STATE UNIVERSITY
 FALL SEMESTERS 1979 THROUGH 1984
 (EXPRESSED AS PERCENTS)

Return Rate	1979	1980	1981	1982	1983	1984	Average
Freshman Class	68.2	69.1	68.1	65.6	66.9	66.4	67.4
Sophomore Class	74.7	77.2	76.9	75.3	76.2	77.8	76.4
Junior Class	76.7	76.1	75.9	79.4	76.9	77.7	77.1
Senior Class	22.5	26.7	28.7	27.9	29.5	34.0	28.2

Note: Return rate is defined as an enrolled fall semester student returning for the following fall semester as an undergraduate student.

Return rate is computed by comparing the previous fall semester class to the current fall semester class by matching on student identification number. If a student's identification number matches, he/she is a continuing student. An example is: Of the 5,258 freshmen for Fall 1979, 3,587 returned the following fall semester giving a return rate of 68.2.

OSU FALL SEMESTER HEADCOUNT ENROLLMENT PROJECTIONS

The undergraduate enrollment for the current year at Oklahoma State University is composed of 86.7% Oklahoma residents, and 13.3% non Oklahoma residents. This has changed little over the past ten years. Therefore the principal basis for student enrollment projections must be the youth population of Oklahoma. One can easily understand that the Oklahoma high schools are the major source of OSU students. Therefore, the enrollment projections of OSU students must be based on a projection of Oklahoma high school graduates. The changes in the Oklahoma economy may have had an effect on out migration of population from Oklahoma which also affects high school enrollments. In 1983 it appeared that the 1989 high school graduating class would be the largest ever to exist in Oklahoma. It now appears that it will be larger than those for the past few years but not any larger than it was for 1979 or 1980. Thus some of the optimism for larger than ever enrollments in the 1990's will not materialize, but an increase will develop starting about 1989 over present enrollment levels.

The Oklahoma State Department of Public Education in past years has published a report illustrating the flow of students in public school systems of Oklahoma. This document was the source used as a basis for projecting Oklahoma public high school graduates in order to project the new freshman class at Oklahoma State University. The Oklahoma Statistical Data Center does not publish the same report now, but does publish a similar report, which can be used for projection purposes.

A retention study is done each fall illustrating the flow of students from class to class with respect to the previous fall semester to the present fall semester. Upon reviewing these studies one finds the retention of a specific class varies some from year to year, but the distribution of the

students to different classes varies more. The table on page 80 illustrates this point. One can develop models which project the overall retention better than a particular group advancing to the next class. This method decreases the amount of error when projecting total headcount.

Graduate enrollment is not easy to project with respect to the same variables as undergraduate enrollment. The Higher Education Budget for Oklahoma had a more than usual effect on Fall 1985 enrollment. The amount of available funding for graduate students from departments and the emphasis of the departments on recruiting graduate students are major factors which are affecting enrollment, and must be taken into consideration when making projections. Input by Oklahoma State University's Dean of the Graduate College on policy and future funding is reflected in the graduate enrollment projections. At the present time, his belief is that graduate enrollment will increase a small amount for the next few years if present administrative practices are followed with respect to graduate student employment.

The enrollment projections were extended to ten years instead of as in the previous projections three years, due to the many requests for long range enrollment projections from administrators. OSU will be putting more emphasis on marketing with regard to both high school and junior college students. Also, retention of students at OSU will be receiving more attention in the future. The model will require modification due to the added emphasis in both marketing and retention for the next few years. Also changes in policy are not reflected in those models until after being in existence for a few years. New enrollment models involving more emphasis on delphi techniques may be developed in the future.

GLOSSARY

Age

A student's age is computed by subtracting year of birth from 85. Therefore, students born in January 1965 and December 1965 will both be reported as age 20 (85-65).

Classification

Classification describes the student level and/or type and includes freshman, sophomore, junior, senior, special undergraduate, special graduate, master, and doctorate.

College

The University is divided into six undergraduate colleges: Agriculture (AG); Arts and Sciences (AS); Business Administration (BU); Education (ED); Engineering, Technology and Architecture (CEAT); and Home Economics (HE). Data for Engineering, Technology and Architecture are sometimes divided into two data sets--one for the School of Technology (Tech Inst or School of Tech), and the second for Engineering and Architecture (EN).

In addition to these six undergraduate colleges, there are the Graduate College and the College of Veterinary Medicine. In this report, students enrolled in the Graduate College are usually distributed for reporting purposes to the respective undergraduate college which administers their major coursework.

Educational TV Students

An Educational TV student is a student who is taking OSU coursework via the Oklahoma State Regents for Higher Education's Talk-Back television system. The student may or may not also be enrolled in courses at the University Center at Tulsa. A student who is enrolled in courses at OSU and who is also enrolled in an Educational TV course is counted as an OSU student (see Student Location).

Race Codes and Definitions

For purposes of reporting OSU enrollment by race, the total enrollment at OSU excluding non-resident aliens (Non-U.S. citizens) is divided into the following categories:

- White: All persons having origins in any of the original peoples of Europe (except Spain and Portugal), North Africa (above the Sahara), or the Middle East. This category would include, for instance: Italy, France, the British Isles, Scandinavia, Germany, Russia, Romania, Greece, Turkey, Morocco, Algeria, Libya, Egypt, Iraq, Israel, Saudi Arabia and Iran.

In order to present a set of data regarding OSU enrollment which sums to OSU's total enrollment (including non-resident aliens), some tables and figures which present data by race in this report include an additional column or row of data pertaining to the balance of the student body--the non-resident alien population.

Resident Status

A student is categorized as a resident if he or she was a legal resident of the State of Oklahoma at the time of original admission to OSU. If not a legal resident of Oklahoma at the time of admission, the student is a non-resident. If the student was a legal resident of a country other than the United States at the time of admission, the student is categorized as a non-resident alien.

Retention

Student retention is usually expressed as a percentage figure which is derived by comparing the size of a specific group of students who were enrolled at OSU for a given semester to the size of the same group when they are enrolled for a successive given semester.

A non-returning student is defined as a student who was enrolled at OSU for a given semester and who did not graduate and who did not return to OSU for a successive given semester.

Special Undergraduate/Graduate Student

A special undergraduate student is one who has not yet selected a major. A special graduate student is a student with a bachelor's degree from an accredited college or university who is admitted to the graduate college and is taking courses at OSU, but who does not have immediate plans to become a degree candidate.

Student Location

Beginning with the Fall Semester 1983, every student on the Student Master File is defined by one of the following Student Location Codes:

- 0 Enrolled only in courses on the OSU main campus (OSU)
- 1 Enrolled in courses on the OSU main campus and also taking courses at the University Center at Tulsa (OSU + UCT)
- 2 Enrolled in OSU courses only offered at the University Center at Tulsa (UCT)
- 3 Enrolled in OSU courses only through the Oklahoma State Regents for Higher Education's Talk-Back Television system (EDTV or ETV or Educational TV students)
- 4 Enrolled in OSU courses through Educational TV and also at the University Center at Tulsa (ETV + UCT)
- 5 Enrolled in courses on the OSU main campus and also enrolled in OSU courses through Educational TV (OSU + ETV)
- 6 Enrolled in OSU courses on the main campus, through Educational TV and at University Center at Tulsa (OSU + ETV + UCT)

For purposes of reporting data, students are reported as UCT students only if they are enrolled in OSU courses exclusively at the University Center at Tulsa (2 above). Students are reported as Educational TV students if they are enrolled in an Educational TV course but are NOT also enrolled in a course on the OSU main campus (3 and 4 above). If a student is enrolled in a course on the OSU main campus, he or she is reported as a "main campus" student, irrespective of whether that student is also enrolled in an Educational TV course(s) offered at the University Center at Tulsa (0, 1, 5 and 6 above).

Type of Admission

New students admitted to OSU are classified as a new freshman, a transfer student or a readmission. All other students are classified as returning students. A transfer student is classified as such only for the first semester that he attends OSU; after one semester a transfer student is reclassified as a returning student. Similarly, new freshmen are reclassified as returning students after their first semester at OSU (and are sometimes shown as "other freshmen" when presenting data by classification). A readmission student is a student who has enrolled at OSU in the past but who has not been enrolled at OSU during the previous semester (excluding the summer semester).

for purposes of the Act, they are considered as if they were enrolled in an institution of higher learning. The Board of Education of the City of New York has held that the fact that a student is not enrolled in a school does not prevent him from being considered as if he were enrolled in a school for purposes of the Act.

The Board of Education of the City of New York has also held that a student who is not enrolled in a school but who is attending a school for the purpose of earning credit for a degree is considered as if he were enrolled in a school for purposes of the Act.
