## **FALL 1996 OSU STUDENT PROFILE DATA AND TREND HIGHLIGHTS**

### **GENERAL**

- ◆ Stillwater campus enrollment is up for the second year in a row; we are at 80% of our high point that was reached in 1982.
- ◆ While OSU's Fall 1996 total enrollment increased by 0.4% from Fall 1995, the state system enrollment decreased by 3.3%.
- ◆ Five-year enrollment trends from Fall 1991 to Fall 1996: new freshmen are up 12.7% and graduate enrollment is up 5%.
- ◆ First-year retention figures for full-time new freshmen (77.3%) and new transfers (71.6%) are up for the Fall 1995 class.
- ◆ The percentage of the 1990 beginning freshman class graduating after 6 years increased from 45.9% to 48.7% over the 1986 beginning freshman class.
- ◆ OSU's market share of Oklahoma ACT test-takers decreased slightly from 1995's new freshman class, from 9.1% to 9.0%.
- ◆ OSU's percentage share of the total state system headcount enrollment in Oklahoma's institutions of higher education increased for the second year in a row, from 11.5% in 1995 to 11.9% in 1996.
- ◆ Counting all students (undergraduate and graduate), once again, all 77 counties in Oklahoma, all 50 states, and 105 foreign countries are represented among OSU's student body.
- ◆ Projections for the number of Oklahoma high school Spring 1996 graduates were revised downward this past spring. The decrease in resident high school graduates, together with higher admission standards, resulted in a slight drop in Oklahoma resident new freshmen (2,056 this year vs. 2,090 last year). Oklahoma high school graduates are again predicted to rise beginning in 1997 through the year 2000, peaking at an increase of 15.6% above the Spring 1996 totals.

### **STUDENT BODY**

#### **Source of Students**

- ◆ Total *resident new freshmen* increased 11.4% from Fall 1991 to Fall 1996.
- ◆ Total *resident new transfers* increased 12.6% from Fall 1995 to Fall 1996.
- ◆ In Fall 1996, Stillwater High School again provided twice as many new freshmen as the next highest feeder school (129 students). Jenks High School was the next highest feeder school this year and in 1995 (60 students both years). In the three years before (1994, 1993, and 1992), Edmond Memorial High School sent the second highest number of new freshmen (79, 73, 108 students, respectively).

- ◆ OSU continues to draw new freshmen heavily from the six surrounding states. In Fall 1996, OSU had 205 students from these six states. This number was 8.4% of all new freshmen and 53% of all out-of-state new freshmen.
- ◆ Fall 1996 out-of-state new freshmen increased 3.2% from Fall 1995 (from 374 to 386).
- ◆ *Nonresident undergraduates* increased 6.4% from Fall 1995 to Fall 1996 and that reflects continued growth in the proportion of out-of-state undergraduate students.

### **Composition of Student Body**

- ◆ The percentage of minority students has risen for eight straight years, increasing to 22.4% of the student body this fall.

- ◆ International student enrollment has stayed at or above 10% for 3 years in a row.
- ◆ OSU maintained the same percentage of male and female enrollment in Fall 1996 as in Fall 1995: 54.2% male, 45.6% female.
- ◆ Enrollment of adult students (i.e., students age 23 and over) has increased 3% since Fall 1991 (from 7,259 to 7,477).
- ◆ OSU students borrowed 105% more money in the 1995-96 academic year than they did 5 years previously, while grants and other forms of nondebt financial aid increased only 16%.

*Note:* Retention is defined as the percent of enrolled students of a fall semester who return for the following fall semester. Example: A student who is enrolled as a new freshman in the Fall Semester 1986 and who was also enrolled as an undergraduate in the Fall Semester 1987 is reflected in the 73.7 continued enrollment figure above. Beginning in 1986, first-time nontraditional students were classified as new freshmen instead of special students. Students admitted to the Graduate College at OSU are counted as graduated. Students admitted to the College of Veterinary Medicine after their third year are also counted as graduated. This table includes Summer 96 graduates.

Example: A student who was enrolled as a Freshman in Ag Sci & Nat Res in the Fall Semester 1993 and who was also enrolled as an undergraduate in the Fall Semester of 1994 is reflected in the 80.4% retention figure above. Cont. = Continued; Grad. = Graduated. Preceding summer graduates are now included in these figures.

*Note:* A non-returning student is defined as a student who was enrolled at OSU for one fall semester but who did not graduate and who did not return to OSU for the following fall semester. The data presented above shows non-returning students as a percent of the total enrollment by class and ethnic group for the Fall Semesters 1993, 1994, and 1995. The percent of the previous fall semester class which graduated (% Grad.) is also presented.

For example, of the total (100%) Native American students enrolled at OSU as seniors in the Fall Semester 1995, 16.5% were not enrolled at OSU in the Fall Semester 1996 nor had they graduated from OSU; these students are shown as "% Non-Returning." Of the Native American senior students enrolled in the Fall Semester 1995, 47.8% had gone on to graduate prior to the Fall Semester 1996.

*Note:* Return rate is defined as an enrolled fall semester student returning for the following fall semester as an undergraduate student.

Return rate is computed by comparing the previous fall semester class to the current fall semester class by matching the student identification number. If a student's identification number matches, he/she is a continuing student. For example, of the 3,446 freshmen for Fall 1995, 2,376 returned the following fall semester giving a return rate of 69.0%.

*Note:* Retention is defined as the percent of enrolled students of a fall semester who return for the following fall semester. Example: A student who is enrolled as a new transfer in the Fall Semester 1986 and who was also enrolled as an undergraduate in the Fall Semester 1987 is reflected in the 66.2 continued enrollment figure above. Students admitted to the Graduate College at OSU are counted as graduated. Students admitted to the College of Veterinary Medicine after their third year are also counted as graduated. This table includes Summer 96 graduates.

**OKLAHOMA STATE UNIVERSITY  
FALL SEMESTER HEADCOUNT ENROLLMENT AND PROJECTIONS**

Enrollment at Oklahoma State University continued its upward climb in Fall 1996, due in large part to continued matriculation by last year's record-setting freshman class. In the past, the new student category has been the best source for increased enrollment. Sources for new students on campus include new freshmen, new graduate students, new transfer students, and readmitted students. This fall, OSU had 2,442 new freshmen, 1,069 new graduate students, 1,209 new undergraduate transfers, and 475 readmitted undergraduate students. The projections in this section are mathematical models based on these and other past performances. No attempt has been made to capture any of the "intangibles" which might attract students to the campus.

The new freshman enrollment for Fall 1996 is composed of 84.2% Oklahoma residents. This percentage share is characteristic of the freshman classes enrolling in this decade. Forecasts for Oklahoma high school graduates show increasing numbers through the end of the millenium, so the percentage of Oklahoma residents in future freshmen classes should account for an increasing share of each new freshman class. The forecasts of Oklahoma high school graduates used in this section are based upon information from the Oklahoma State Department of Education and the State Regents for Higher Education. It assumes that demographic trends such as immigration into and emigration out of the state will remain relatively constant.

In summary, several factors complicate enrollment projections at OSU. Some of these factors depend on policy decisions originating with the Oklahoma State Regents for Higher Education and some depend on recruitment policies set by OSU administration. The impact of any new initiatives as well as changing admissions, enrollment, retention, scholarship, and recruiting policies will require the passage of some time in order for their effect to be reflected in the data used as a basis for enrollment projections.

## GLOSSARY

### **Age**

A student's age is computed by subtracting year of birth from 1995. Therefore, students born in January 1972 and December 1972 will both be reported as age 24 (1996-1972).

### **Classification**

Classification describes the student level and/or type and includes freshman, sophomore, junior, senior, special undergraduate, special graduate, master, and doctorate.

### **College**

The University is divided into six undergraduate colleges: Agricultural Sciences & Natural Resources (ASNR); Arts and Sciences (A&S); Business Administration (CBA); Education (COE); Engineering, Architecture, and Technology (CEAT); and Human Environmental Sciences (HES). Data for CEAT are sometimes divided into two data sets--one for Engineering & Architecture (ENGR), and the second for the Division of Technology (TECH).

In addition to these six undergraduate colleges, students may enroll in the University Academic Services, the Graduate College, and the College of Veterinary Medicine. In this report, students enrolled in the Graduate College are usually distributed for reporting purposes to the respective undergraduate college which administers their major coursework.

### **Ethnicity Codes and Definitions**

For purposes of reporting OSU enrollment by ethnicity, the total enrollment at OSU excluding internationals (non-U.S. citizens) is divided into the following categories:

- |                   |   |
|-------------------|---|
| White:            | All persons having <u>origins</u> in any of the <u>original</u> peoples of Europe (except Spain and Portugal), North Africa (above the Sahara), or the Middle East. This category would include, for instance: Italy, France, the British Isles, Scandinavia, Germany, Russia, Romania, Greece, Turkey, Morocco, Algeria, Libya, Egypt, Iraq, Israel, Saudi Arabia, and Iran. |
| African American: | All persons having <u>origins</u> in any of the <u>original</u> peoples of Africa south of the Sahara.  |
| Native American:  | All persons having <u>origins</u> in any of the <u>original</u> peoples of North or South America.  |

**Hispanic:** All persons having origins in any of the original peoples of Spain or Portugal. This category would generally include, for instance: Chicanos, Mexican-Americans, Mexicans, Central and South Americans, Cubans, Puerto Ricans, Spaniards, and Portuguese.

**Asian:** All persons having origins in any of the original peoples of the Far East, Southeast Asia, or the Pacific Islands. This category would include, for instance: China, Japan, Korea, Thailand, Vietnam, the Philippines, Samoa, Indonesia, New Zealand, Australia, and the Indian subcontinent which includes all persons from Afghanistan, Nepal, Burma, India, and Pakistan.

In order to present a set of data regarding OSU enrollment which sums to OSU's total enrollment (including international students), some tables and figures which present data by ethnicity in this report include an additional column or row of data pertaining to the balance of the student body--the international student population.

### **Resident Status**

A student is categorized as a resident if he or she was a legal resident of the State of Oklahoma at the time of original admission to OSU. If not a legal resident of Oklahoma at the time of admission, the student is a nonresident. If the student was a legal resident of a country other than the United States at the time of admission, the student is categorized as an international.

### **Retention**

Student retention is usually expressed as a percentage figure which is derived by comparing the size of a specific group of students who were enrolled at OSU for a given semester to the size of the same group when they are enrolled for a successive given semester.

A non-returning student is defined as a student who was enrolled at OSU for a given semester and who did not graduate and who did not return to OSU for a successive given semester.

### **Special Undergraduate/Graduate Student**

A special undergraduate student is a non-degree seeking student who has not earned a bachelor's degree from an accredited college or university. A special graduate student is a non-degree seeking student admitted to the Graduate College.

### **Student Location**

Beginning with the Fall Semester 1983, every student on the Student Master File was defined by one of the following Student Location Codes:

- |   |  |
|---|--|
| 0 | Enrolled only in courses on the OSU main campus (OSU)  |
| 1 | Enrolled in courses on the OSU main campus and also taking courses at the University Center at Tulsa (OSU + UCT) |
| 2 | Enrolled in OSU courses only offered at the University Center at Tulsa (UCT)                                     |

For purposes of reporting data, students are reported as UCT students only if they are enrolled in OSU courses exclusively at the University Center at Tulsa (2 above). If a student is enrolled in a course on the OSU main campus, he or she is reported as a "main campus" student, irrespective of whether that student is also enrolled at the University Center at Tulsa (0 and 1 above).

### **Type of Admission**

A new student admitted to OSU is classified as a new freshman, a transfer student, or a readmission. All other students are classified as returning students. A transfer student is classified as such only for the first semester that he attends OSU; after one semester a transfer student is reclassified as a returning student. Similarly, new freshmen are reclassified as returning students after their first semester at OSU (and are sometimes shown as "other freshmen" when presenting data by classification). A readmission student is a student who has enrolled at OSU in the past but who has not been enrolled at OSU during the previous semester (excluding the summer semester).
