Note: The above table may be interpreted in this way: Of the 1,906 students enrolled in the College of Agricultural Sciences and Natural Resources in the Fall Semester 2008, 1,153 (60.5%) were enrolled in the same college in the Fall Semester 2009, 239 students (12.5%) were not enrolled at Oklahoma State University, 403 (21.1%) had graduated, and the remainder transferred to other colleges within OSU.

This chart excludes concurrently enrolled high school students, special undergraduate students, and students whose enrollment was cancelled during the Fall 2008 Semester. Students are counted as graduated if they have enrolled in a graduate program at OSU.

Note: Retention is defined as the percent of enrolled students of a fall semester who return for the following fall semester. Example: A student who is enrolled as a new transfer in the Fall Semester 1999 and who was also enrolled as an undergraduate in the Fall Semester 2000 is reflected in the 78.1% continued enrollment figure above. Students admitted to the Graduate College at OSU are counted as graduated. Students admitted to the Center for Veterinary Health Sciences after their third year are also counted as graduated. This table includes Summer 2009 graduates.

In past years, students who enrolled at OSU from other countries for a "study abroad" experience were included in this table. Since these students are only here for one year they have now been excluded from this table. Therefore, the percentages in this table may differ from tables in previous years.

ENROLLMENT PROJECTIONS

OKLAHOMA STATE UNIVERSITY FALL SEMESTER HEADCOUNT ENROLLMENT AND PROJECTIONS

Enrollment at Oklahoma State University showed an increase for the Fall 2009 semester with a headcount of 22,845. This marks the first increase in enrollment since Fall 2004. While the undergraduate portion of enrollment decreased when compared to Fall 2008, the encouraging news is that recruitment efforts by the Office of Undergraduate Admissions were successful, resulting in an increased number of new freshmen, as well as undergraduate transfers. As the number of bachelor degrees granted continues to grow, with the recent senior classes being the largest in more than 20 years, it bodes well for future years that our numbers of new freshmen and undergraduate transfers are keeping pace.

The projections for future years presented in this section are mathematical models based on past trends in applications, admitted students, and subsequent enrollments, as well as retention rates and forecasts of high school graduates. Forecasts for Oklahoma high school graduates show numbers fluctuating over the next four years. Because the OSU freshman class is made up of almost 75% Oklahoma residents, these forecasts are the primary source of projection numbers for freshman enrollment. The forecasts of Oklahoma high school graduates used in this section are based upon information from the Oklahoma State Department of Education and the State Regents for Higher Education. They assume that demographic trends such as immigration into and emigration out of the state will remain relatively constant.

Graduate enrollment at OSU was also a source of significant growth for the Fall 2009 semester with graduate student headcount increasing by 204 students. This is not surprising considering the current economy, along with increased unemployment rates which typically lead to increased numbers of people returning to school.

In summary, several factors affect enrollment projections at OSU. Some of these factors depend on policy decisions originating with the Oklahoma State Regents for Higher Education and others depend on recruitment policies set by OSU administration. The impact of these policies, as well as changing admissions, enrollment, retention, scholarship, and recruiting practices, all have a role in determining future enrollment at Oklahoma State University. The Office of Institutional Research & Information Management will continue to monitor developments in these areas and assess their impact on enrollment.

GLOSSARY

GLOSSARY

Age

A student's age is computed by subtracting year of birth from 2009. Therefore, students born in January 1988 and December 1988 will both be reported as age 21 (2009-1988).

Classification

Classification describes the student level and/or type and includes freshman, sophomore, junior, senior, special undergraduate, special graduate, master, doctorate, and professional (Doctor of Veterinary Medicine).

College

The University is divided into seven colleges: Agricultural Sciences & Natural Resources (ASNR); Arts & Sciences (A&S); Spears School of Business (SSB); Education (COE); Engineering, Architecture, & Technology (CEAT); Human Environmental Sciences (HES); and Center for Veterinary Health Sciences (CVHS). Data for CEAT are sometimes divided into two data sets—one for Engineering & Architecture (ENGR) and the second for the Division of Technology (TECH).

In addition to these seven colleges, students may enroll in University Academic Services or the Graduate College. In this report, students enrolled in the Graduate College are usually distributed for reporting purposes to the respective college that administers their major coursework.

Ethnicity Codes and Definitions

For purposes of reporting OSU enrollment by ethnicity, the total enrollment at OSU excluding internationals (non-U.S. citizens) is divided into the following categories:

- White: All persons having origins in any of the original peoples of Europe (except Spain and Portugal), North Africa (above the Sahara), or the Middle East. This category would include, for instance: Italy, France, the British Isles, Scandinavia, Germany, Russia, Romania, Greece, Turkey, Morocco, Algeria, Libya, Egypt, Iraq, Israel, Saudi Arabia, and Iran. Any person not claiming an ethnicity is categorized as white.
- African American: All persons having origins in any of the original peoples of Africa south of the Sahara.

- Native American: All persons having origins in any of the original peoples of North or South America.
- Hispanic: All persons having origins in any of the original peoples of Spain or Portugal. This category would generally include, for instance: Chicanos, Mexican-Americans, Mexicans, Central and South Americans, Cubans, Puerto Ricans, Spaniards, and Portuguese.
- Asian: All persons having origins in any of the original peoples of the Far East, Southeast Asia, or the Pacific Islands. This category would include, for instance: China, Japan, Korea, Thailand, Vietnam, the Philippines, Samoa, Indonesia, New Zealand, Australia, and the Indian subcontinent which includes all persons from Afghanistan, Nepal, Burma, India, and Pakistan.

In order to present a set of data regarding OSU enrollment that sums to OSU's total enrollment (including international students), some tables and figures that present data by ethnicity in this report include an additional column or row of data pertaining to the balance of the student body - the international student population.

FTE (Full-Time Equivalency)

Full-time equivalent for undergraduate students is 15 hours. For graduate students, a full-time equivalent is 12 hours. All professional students are one FTE.

New Freshman

A new freshman is a degree-seeking undergraduate student with fewer than seven hours of college credit earned before his/her first semester at OSU. College hours earned through advanced placement or through concurrent high school enrollment are not figured into the seven hour limit. Students who begin as new freshmen during the Summer semester, and continue their enrollment into the Fall semester, are counted as new freshmen for the Fall. This change begins with Fall 2003 counts.

Resident Status

A student is categorized as a resident if he or she was a legal resident of the State of Oklahoma at the time of original admission to OSU. If not a legal resident of Oklahoma at the time of admission, the student is a nonresident. If the student was a legal resident of a country other than the United States at the time of admission, the student is categorized as an international.

Retention

Student retention is usually expressed as a percentage figure which is derived by comparing the size of a specific group of students who were enrolled at OSU for a given semester to the size of the same group when they are enrolled for a successive given semester.

A non-returning student is defined as a student who was enrolled at OSU for a given semester and who did not graduate and who did not return to OSU for a successive given semester. Only regular fall and spring semesters are considered when determining whether a student is enrolled in successive semesters.

Special Undergraduate/Graduate Student

A special undergraduate student is a non-degree-seeking student who has not earned a bachelor's degree from an accredited college or university. A special graduate student is a non-degree-seeking student admitted to the Graduate College.

Type of Admission

A new student admitted to OSU is classified as a new freshman, a transfer student, or a readmission. All other students are classified as returning students, concurrent high school students, or non-degree-seeking students. A transfer student is classified as such only for the first semester that he attends OSU; after one semester, a transfer student is reclassified as a returning student. Similarly, new freshmen are reclassified as returning students after their first semester at OSU (and are sometimes shown as "other freshmen" when presenting data by classification). A readmission student is a student who has enrolled at OSU in the past but who has not been enrolled at OSU during the previous semester (excluding the summer semester).
