*Note:* This table excludes 349 professional students for Fall 2013, but does include OSU-Tulsa figures for all years listed.  
The percentage increase or decrease in enrollment between two semesters is shown in the "% Inc / Dec" column. Example:  
There was a 5.7% increase in enrollment of continuing students from Fall 2012 to Fall 2013.

\* New freshmen counts exclude concurrent high school students and non-degree-seeking students for all years listed.

Student Profile books prior to Fall 2006 include new concurrent high school students in the new freshmen counts.

Example: A student who is enrolled as a new transfer in the Fall Semester 2003 and who was also enrolled as an undergraduate in the Fall Semester 2004 is reflected in the 76.1% continued enrollment figure above. Students admitted to the Graduate College at OSU are counted as graduated. Students admitted to the Center for Veterinary Health Sciences after their third year are also counted as graduated. This table includes Summer 2013 graduates.

In past years, students who enrolled at OSU from other countries for a "study abroad" experience were included in this table. Since these students are only here for one year they have now been excluded from this table. Therefore, the percentages in this table may differ from tables in previous years.

# ENROLLMENT PROJECTIONS

## **OKLAHOMA STATE UNIVERSITY FALL SEMESTER HEADCOUNT ENROLLMENT AND PROJECTIONS**

Enrollment at Oklahoma State University showed yet another significant increase for the Fall 2013 semester with a headcount of 25,939. This represents an increase of almost 400 over Fall 2012 and is a new all-time high for OSU-Stillwater/Tulsa enrollment. OSU welcomed 3,872 new freshmen this fall. While new freshmen enrollment decreased for the first time in five years, the larger freshmen classes of the past four years continue to contribute to the overall enrollment increases.

The projections for future years presented in this section are mathematical models based on past trends in applications, admitted students, and subsequent enrollments, as well as retention rates and forecasts of high school graduates. Forecasts for Oklahoma high school graduates show slight decreases over the next two years, followed by continual increases for at least five years after that. Because the OSU freshman class is made up of approximately two-thirds Oklahoma residents, these forecasts are the primary source of projection numbers for freshman enrollment. The forecasts of Oklahoma high school graduates used in this section are based upon information from the Oklahoma State Department of Education and the State Regents for Higher Education. They assume that demographic trends such as immigration into and emigration out of the state will remain relatively constant.

Graduate enrollment at OSU also increased to 5,097 in Fall 2013. This represents a slight increase over Fall 2012 and also constitutes the largest number of graduate students ever enrolled at OSU.

In summary, several factors affect enrollment projections at OSU. Some of these factors depend on policy decisions originating with the Oklahoma State Regents for Higher Education and others depend on recruitment policies set by OSU administration. The impact of these policies, as well as changing admissions, enrollment, retention, scholarship, and recruiting practices, all have a role in determining future enrollment at Oklahoma State University. The Office of Institutional Research & Information Management will continue to monitor developments in these areas and assess their impact.

\* 65 sophomores and 5 juniors in this table are in their first year of college and are thus listed in other tables as new freshmen.

## GLOSSARY

### **Age**

A student's age is computed by subtracting year of birth from 2013. Therefore, students born in January 1992 and December 1992 will both be reported as age 21 (2013-1992).

### **Classification**

Classification describes the student level and/or type and includes freshman, sophomore, junior, senior, special undergraduate, special graduate, master, doctorate, and professional (Doctor of Veterinary Medicine).

### **College**

The University is divided into seven colleges: Agricultural Sciences & Natural Resources (ASNR); Arts & Sciences (A&S); Spears School of Business (SSB); Education (COE); Engineering, Architecture, & Technology (CEAT); Human Sciences (HS); and Center for Veterinary Health Sciences (CVHS). Data for CEAT are sometimes divided into two data sets—one for Engineering & Architecture (ENGR) and the second for the Division of Technology (TECH).

In addition to these seven colleges, students may enroll in the Learning and Student Success Opportunity (LASSO) Center or the Graduate College. In this report, students enrolled in the Graduate College are usually distributed for reporting purposes to the respective college that administers their major coursework.

### **Ethnicity Codes and Definitions**

Due to mandated reporting changes starting in Fall 2011, the Student Profile contains additional ethnicity categories for Pacific Islanders, multiracial and unknown groups. Therefore, ethnicities in prior Student Profile books may not be comparable. This change in reporting caused a shift in enrollment counts by ethnicity because students who previously could report only one ethnicity may now report multiple races/ethnicities. Beginning with the Fall 2011 Student Profile, the total enrollment is grouped into the following ethnicity categories:

White: A person having origins in any of the original peoples of Europe, Middle East, or North Africa.

African American: A person having origins in any of the Black racial groups of Africa.

Native American:	A person having origins in any of the original peoples of North and South America(including Central America), and who maintains a tribal affiliation or community attachment.
Hispanic:	A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race. If a student self-selects Hispanic/Latino ethnicity and is not an International, the student will be counted as Hispanic regardless if other races are selected.
Asian:	A person having origins in any of the original peoples of the Far East, Southeast Asian, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
Pacific Islander:	A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
Multiracial:	Students that are not Hispanic or International are considered multiracial if they have self-selected more than one race value. A student identifying with multiple races will only be counted once in the multiracial category.
Unknown:	Any student that does not have a valid race/ethnicity value, is not defined as an international student, or has declined to identify is classified as unknown.
International:	While International is not a collected race/ethnicity value, the Student Profile identifies non-resident aliens by considering Sevis citizenship, permanent resident, and current visa status fields for International student identification.

### **FTE (Full-Time Equivalency)**

Full-time equivalent for undergraduate students is 15 hours. For graduate students, a full-time equivalent is 12 hours. All professional students are one FTE.

### **New Freshman**

A new freshman is a degree-seeking undergraduate student with fewer than seven hours of college credit earned before his/her first semester at OSU. College hours earned through advanced placement or through concurrent high school enrollment are not figured into the seven hour limit. Students who begin as new freshmen during the Summer semester, and continue their enrollment into the Fall semester, are counted as new freshmen for the Fall. This change begins with Fall 2003 counts.

### **Resident Status**

A student is categorized as a resident if he or she was a legal resident of the State of Oklahoma at the time of original admission to OSU. If not a legal resident of Oklahoma at the time of admission, the student is a nonresident. If the student was a legal resident of a country other than the United States at the time of admission, the student is categorized as an international. Refer to Ethnicity Codes and Definitions for more information on which students are considered internationals. In certain situations, a small number of international students, such as those graduating from Oklahoma high schools, are considered in-state residents although they will still be reflected in the international numbers in the Student Profile.

### **Retention**

Student retention is usually expressed as a percentage figure which is derived by comparing the size of a specific group of students who were enrolled at OSU for a given semester to the size of the same group when they are enrolled for a successive given semester.

A non-returning student is defined as a student who was enrolled at OSU for a given semester and who did not graduate and who did not return to OSU for a successive given semester. Only regular fall and spring semesters are considered when determining whether a student is enrolled in successive semesters.

### **Special Undergraduate/Graduate Student**

A special undergraduate student is a non-degree-seeking student who has not earned a bachelor's degree from an accredited college or university. A special graduate student is a non-degree-seeking student admitted to the Graduate College.

### **Type of Admission**

A new student admitted to OSU is classified as a new freshman, a transfer student, or a readmission. All other students are classified as returning students, concurrent high school students, or non-degree-seeking students. A transfer student is classified as such only for the first semester that he/she attends OSU; after one semester, a transfer student is reclassified as a returning student. Similarly, new freshmen are reclassified as returning students after their first semester at OSU (and are sometimes shown as "other freshmen" when presenting data by classification). A readmission student is a student who has enrolled at OSU in the past but who has not been enrolled at OSU during the previous semester (excluding the summer semester).
